

Nikolai Bogatyrev

Technical Product Manager | SaaS & Platform Products

Tbilisi, Georgia | bogatyrev.nik2023@gmail.com | linkedin.com/in/koleneb | t.me/koleneb

Technical Product Manager with 6+ years in IT. I bridge product strategy and engineering execution — driving B2C→B2B pivots, launching 0→1 products, and scaling delivery from chaos to predictable pipelines. Sprint efficiency from 50% to 90%, on-time delivery to 80%+, team throughput ×3. Managed cross-functional teams up to 17 people across SaaS, fintech, and platform products in the EMEA market.

EXPERIENCE

Product Manager

Aug 2025 — Present

Confidential — Gambling Platform | Full-time | Tbilisi

Leading product strategy for platform serving millions of users globally.

- End-to-end product lifecycle: bonus systems, payment integrations, user engagement
- Cross-functional collaboration with engineering (17+), design, and marketing
- Competitive analysis and market research for EMEA growth

Project Manager

Nov 2024 — Jun 2025

Star IT — Marketplace & Android POS | Contract | Tbilisi

- **0→1 Launch:** Shipped Android POS from concept to production — 500+ devices, 30+ cities
- **Delivery ×3:** On-time delivery improved from 50% to 80%, 3× feature throughput
- **AI Analytics:** Voice-enabled analytics tool — report generation from 2h to 5min
- **Cloud Migration:** Looker to cloud, zero downtime, \$50K/year savings

JIRA, Redshift, DBT, Looker, Scrum

Project Manager

Oct 2023 — Jul 2024

Slotegrator — SaaS Game Integrations | Full-time | Remote (Czech Republic)

Team of 17: 12 backend, 4 QA, 1 analyst. EMEA market.

- **Delivery:** Iterative planning → on-time delivery from 50% to 80%
- **Throughput ×3:** Team output from 1 to 3 major features/month
- **Process:** Built analytics workflow — approval iterations from 5 to 2, timeline from 1mo to 2wk
- **Onboarding:** Adaptation program reducing ramp-up from 3 months to 1

JIRA, Scrum, MIRO, Confluence

Project Manager

Apr 2022 — Oct 2023

Confidential — Crypto Exchange Aggregator | Full-time | Remote (Tbilisi)

Third-party exchange aggregator. B2C→B2B pivot. Team of 12.

- **Product pivot:** B2C→B2B — built embeddable widget and 2 API versions for third-party integration
- **Cloud migration:** Full product migration from on-premise to cloud
- **Mobile launch:** iOS and Android apps from spec to deployment
- **Sprint efficiency:** 50% → 90% task completion; monthly → bi-weekly releases

JIRA, Scrum, Kanban

PM → Senior Project Manager

2018 — 2022

e-Legion · Heads and Hands · Liga A | ~3.5 years | Saint Petersburg

Enterprise clients across telecom, hospitality, digital products. Grew from PM to Senior PM — selling and leading A-tier projects.

- **Tele2** (top-3 telecom): Marketing features with federal registration deadlines. Team of 10
- Negotiated fixed-price → T&M billing, protecting team profitability (17% avg)
- Rose to Senior PM within 7 months at Liga A, independently selling enterprise projects
- Full lifecycle: pre-sale, specs, development, QA, production support

Early Career

2016 — 2019

SkiAR (product course) · Nordics (construction) · Mozgoboynia (entertainment)

Product monetization research, procurement optimization (costs -30%), business development (50 cities, 5 countries).

MoscowCityHack 2021 — 1st place, Education track (25 teams)

In 10 days, assembled a team of strangers with no tech background. Used facilitation + MIRO to lead from user interviews to a winning MVP.
